D-SDX

German technology
for perfect installation
on masonry

INTACT WALL, MORE EFFECTIVE FIXING

**PUNTA
D-SDX**

The 4-edged plate does not chip the entrance and exit wall creating well-defined and perfectly circular holes.

**PUNTA
STANDARD**

PERFECT FOR INSTALLING DOWELS

GREATER STABILITY

**REMOVALS
LARGE VOLUMES OF
DUST**

4 spirals of discharge
u-shaped

**SPEED OF
REMOVAL OF
DUST**

Spirals perfectly
oriented towards the 4
plates without obstacles to the
dust flow

**COMFORT
OF USE**

The plaque
4-edged
produces fewer
vibrations

Designed in Germany

Cylindrical tip with 4 cutting edges. Made of ground steel with tungsten carbide plate. Ideal for masonry, also suitable for concrete. Perfect for installing dowels.
